PROGRAM OBJECTIVE - This program is designed to give the user of a water supply sufficient data about the general water quality, so that decisions may be made concerning its suitability for irrigation.

Cations	Anions	Other	Metals
Calcium	Carbonate	Conductivity	Boron
Magnesium	Bicarbonate	pH	
Sodium	Chloride	TDS by Summation	
Potassium	Fluoride	SAR	
Nitrate + Nitrite as N		Hardness	
Sulfate		Total Alkalinity
