The Wyoming Department of Agriculture is dedicated to the promotion and enhancement of Wyoming's agriculture, natural resources and quality of life.

October 25, 2010

Richard C. Miller, Field Manager
Bureau of Land Management, Newcastle Field Office
1101 Washington Blvd.
Newcastle, WY 82701-2968

Dear Mr. Miller:

Following are the Wyoming Department of Agriculture (WDA) comments pertaining to the proposed decision to authorize installation of 0.6 miles of pipeline and a stockwater trough on the Snyder Creek I (04074) Allotment by the Bureau of Land Management Worland Field Office (FO).

Our comments are specific to our mission: dedication to the promotion and enhancement of Wyoming's agriculture, natural resources, and quality of life. As this proposed decision affects our agriculture industry, our natural resources, and the welfare of our citizens, it's important you continue to inform us of proposed actions and decisions and continue to provide the opportunity to express pertinent issues and concerns.

The WDA appreciates the efforts of the Newcastle FO to improve livestock grazing management by responding to grazing lessee requests for range improvements. BLM allotments are an integral part of agriculture in the area and it is important to improve livestock grazing management to assist in maintaining economic viability for producers.

In conclusion, we support the request to install 0.6 miles of pipeline and a stockwater trough on the analyzed allotment and look forward to continued cooperation on proposed actions and decisions.

Sincerely,

Jason Fearneyhough
Director
