the state of Wyoming

## FIFRA Sec. 24(c) Special Local Need Label

# BASAGRAN® herbicide

For weed control in alfalfa grown for seed production

EPA Reg. No. 7969-45

EPA SLN No. WY-040003

This label is valid until 06/21/2014, until otherwise amended, withdrawn, cancelled or suspended.

Refer to the Basagran® herbicide main label, EPA Reg. No. 7969-45, for complete Directions For Use and all applicable restrictions and precautions. This label and the entire Basagran container label must be in the possession of the user at the time of pesticide application.

### Directions For Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling. **DO NOT** apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your state or tribe, consult the agency responsible for pesticide regulation.

### General Information

**Basagran** is intended for selective postemergence control of certain broadleaf weeds.

**Basagran** does not control grasses. **Basagran** is effective mainly through contact action; therefore, weeds must be thoroughly covered with spray. Large crop-and-weed leaf canopies shelter smaller weeds and prevent adequate spray coverage. Seed alfalfa is tolerant to **Basagran**, however some leaf speckling, leaf bleaching, or whitening and temporary stunting may occur under certain conditions. Applications made at or after flower bud formation may reduce seed yields.

### Application Information

At application, alfalfa must have at least 2 trifoliate leaves and have no flower bud formation. Make post-emergence applications of **Basagran** early, when weeds are small and actively growing. Refer to the **Basagran** container label for a list of weeds controlled and the maximum weed height to be treated. Early

application to weeds produces the most beneficial effect on weed control and makes it easier to obtain thorough spray coverage. Delay in application, which permits weeds to exceed the maximum size stated, will result in inadequate control.

A nonphytotoxic oil concentrate (commonly referred to as oil concentrate) should always be added to the spray tank. Refer to the **Basagran** container label for characteristics of suitable oil concentrates.

With the addition of oil concentrate to **Basagran** on seed alfalfa, a slight leaf burn or temporary stunting may occur, but all new growth is normal. The potential for leaf burn is increased when relative humidity and temperature are high. A few oil concentrates have exhibited excessive leaf burn. Refer to your supplier of **Basagran** for information concerning successful local experience prior to purchasing any oil concentrate.

Apply 1 to 2 pints **Basagran** per acre. If weed regrowth develops, make a second application at the same rate 5 to 14 days later.

### Restrictions and Limitations

For use only on fields in production of alfalfa seed. Not for use on fields producing alfalfa for livestock feed. No portion of the treated field, including seed, seed screenings, hay, forage, or stubble, may be used for human food or animal feed.

Producers of alfalfa seed who use **Basagran** or cause the product to be used on fields they operate are required to inform, in writing, conditioners receiving seed produced on treated fields of the product's use. A copy of this labeling is required to be provided to the conditioner by the producer.

BASF Corporation

The Chemical Company

Use of **Basagran**<sup>®</sup> herbicide according to this labeling is deemed a non-food use.

Treated alfalfa is not to be used for sprouting. All seed alfalfa treated with **Basagran** is to be tagged at the conditioning plant "Not for human or animal consumption."

The processor must dispose of all seed screenings in such a way that they cannot be distributed or used for food or feed.

**DO NOT** apply **Basagran** if alfalfa shows injury (leaf phytotoxicity and/or plant stunting) produced by any other prior herbicide applications, because this injury may be enhanced and/or prolonged.

**DO NOT** apply **Basagran** during prolonged periods of drought or during unseasonably cold weather, as unsatisfactory control may result.

Rainfall or overhead irrigation soon after application (within 4 hours) may nullify the effectiveness of **Basagran**.

**DO NOT** apply this product through any type of irrigation system.

**DO NOT** apply **Basagran** by air in alfalfa grown for seed.

Clean sprayer thoroughly prior to application of **Basagran** particularly if a herbicide was used which has the potential to injure the crop to be sprayed with **Basagran**.

**DO NOT** apply when weather conditions favor drift from treated areas.

**DO NOT** apply more than a total of 4 pints of **Basagran** per acre in one season.

One pint of **Basagran** contains 0.5 pounds of bentazon active ingredient (a.i). **DO NOT** apply more than a total of 2.0 pounds of bentazon a.i. (from all sources) per acre, per calendar year.

## Conditions of Sale and Warranty

The **Directions For Use** of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION ("BASF") or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the **Directions For Use**, subject to the inherent risks, referred to above.

**TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.**

**TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BUYER'S EXCLUSIVE REMEDY AND BASF'S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT.**

**TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, EXEMPLARY, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.**

BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing **Conditions of Sale and Warranty** which may be varied only by agreement in writing signed by a duly authorized representative of BASF.
