

# WQ Grant Ideas

## Campbell County

Design and install new septic systems.  
Relocation of corrals  
Riparian modification  
Expo participation  
Newsletters

## Crook County

Water quality monitoring  
Small acreage workshop  
News articles  
Pond reclamation  
Solid waste management planning  
Worldwide monitoring day  
Septic systems

## Hot Springs

Watershed steering committee  
Water quality sampling  
AFO/CAFO workshops

## Laramie County

Water quality sampling  
Booth at home & garden show  
Newsletters  
Farm show  
Pet waste  
Signage at park  
County Fair booth

## Lincoln

Aquatic plant growth study-*human induced or naturally occurring*  
Water quality sampling

## Lower Wind

TMDL development  
Water quality sampling  
Use attainability analysis  
Small acreage workshops  
Rural living workshops  
Farm & Ranch Days  
Septic work shop hosting  
AFO/CAFO workshops  
Recreation workshop

Watershed issues workshop  
Newsletter articles

## Meeteetse

Study design for re-suspension of stream bed sediments for *E. coli*  
Explaining water quality monitoring program workshop

## Platte County

Water quality monitoring  
No-till drill reclamation  
Russian olive control  
Rural subdivision assistance  
Septic systems  
Small acreage water quality issues  
Riparian buffer  
Water quality sampling

## Popo Agie

Level 1 watershed study

## Powder River

Reclamation workshop  
Water quality monitoring  
Best management practices  
Storm water management plan development class

## Powell-Clarks Fork

Water quality monitoring  
CRM – Russian olive

## Sheridan County

Water resource improvement projects

- ◆ Corral relocations
- ◆ Runoff diversions
- ◆ Stock water developments
- ◆ Riparian buffers
- ◆ Septic system replacement

Water quality monitoring  
River restoration project

## South Big Horn

Water quality sampling  
Water quality monitoring

### Star Valley

Off-stream water projects

- ◆ Fencing off riparian areas
- ◆ Water quality sampling

### Sublette County

Collection of base-line data/monitoring

### Sweetwater County

Water Quality sampling

Best management practices

- ◆ Storm drain repair
- ◆ Pipeline and associated structure repair
- ◆ Stream beautification project

### Washakie County

Watershed Implementation Awareness workshop

Best management practices implementation tour

Water conservation workshop

- ◆ Back yard composting
- ◆ Lawn water management
- ◆ Proper lawn pesticide and fertilizer use
- ◆ Rain barrel use
- ◆ Irrigation efficiencies

Use Attainability Analysis development

Range schools hosting
